

DUNCAN AVIATION CHAIRMAN TODD DUNCAN

I appreciate your interest in the various “lift” options we provide at Duncan Aviation. As you know, Duncan Aviation has operated various business-class aircraft for more than 50 years and I have grown up around private and business aviation. Owning and operating an aircraft is a wonderful opportunity and an excellent way to save one of your most prized assets--your time! No long lines. No long layovers. And no chance of lost luggage or missed connections.

Duncan Aviation can help you achieve this productive and efficient way to travel through our Aircraft Management, Partnership and Charter services. We have 15 professional, FlightSafety International-trained pilots (not including me) and operate seven business class aircraft to meet your varied needs. Our aircraft meet the highest safety and maintenance standards possible and you will see our familiar and professional crews every time you travel.

But don't take my word for it. Here's what some of our customers have to say about our services:

“When Duncan Aviation does something, you know that it will be done right and they will stand behind it. They take a lot of pride of ownership in our Lear 31 even though they are just managing it.”

- Bill Kubly, Founder & CEO, Landscapes Unlimited

“I am a part-owner in Duncan Aviation's Partner aircraft. The partnership option allows me to have aircraft at my disposal without all of the overhead costs associated with outright ownership.”

- Ken Jones, Chairman, Helium Aviation & GlobeWireless

“The entire crew at Duncan is always the best. We have complete confidence in their skills, but their personal touch is also greatly appreciated. Everyone is always very accommodating and responsive.”

- Tonn Ostergard, President and CEO, Crete Carrier

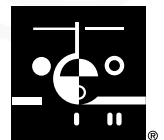

We have literally built Duncan Aviation by serving customers like Landscapes Unlimited, Helium Aviation/ GlobeWireless and Haberfeld Associates, and serving them with excellence.

To find out more about our Flight & Charter Operations, call 402.479.4160 or 800.228.4277 ext. 4160 or visit www.DuncanAviation.aero/charter.

Sincerely,

Todd Duncan
Chairman
Duncan Aviation, Inc.
