

ORGANIZATION DESIGNATION AUTHORIZATION (ODA)

PREMIUM PRODUCTS WITH PREMIUM SERVICE FROM AN ESTABLISHED OEM PROVIDER

ORGANIZATION DESIGNATION AUTHORIZATION

The Organization Designation Authorization (ODA) held by Duncan Aviation is an appointment by the FAA authorizing the Duncan Aviation organization to perform approved functions on behalf of the FAA.

Duncan Aviation has a team of on-staff and consultant engineers and flight test pilots as well as manufacturing and airworthiness inspectors, who are qualified under the ODA to perform authorized functions.

This designation authorizes Duncan Aviation to approve design data, analysis and test procedures, witness compliance testing, as well as make a finding of compliance to the regulations and issue Supplemental Type Certificates for interior and airframe modifications and avionics systems and system upgrades. In addition, the ODA is authorized to issue airworthiness certificates, as well as domestic and export worthiness approvals.

The Duncan Aviation ODA has oversight from the FAA's Wichita, Kan., Aircraft Certification Office (ACO).

ODA NUMBER - ODA-501013-CE

Duncan Aviation has ODA for the following:

- Supplemental Type Certificates (STCs)
- Major Repairs and Alterations (MRAs)
- Duncan Aviation is working with the FAA ACO to obtain authorization under the ODA for Parts Manufacturer Approvals (PMAs).

CUSTOMER BENEFITS

- More controlled environment
- More schedule and turntime control
