DUNCAN AVIATION PRESENTS THE ASTRA/SP FEATURING **ROCKWELL COLLINS PRO LINE 21 IDS** (FAA CERTIFIED ST01332WI)

The Rockwell Collins Pro Line 21 IDS offers many advantages of the Pro Line 21 package at one-third the price. Using Pro Line 21 displays, the IDS integrates with **existing** sensors, radios, flight management systems and autopilots, keeping the cost reasonable.

PRO LINE 21 IDS BENEFITS

- Interfaces with existing Rockwell Collins APS-80 and APS-85 autopilots.
- Uses existing communication, navigation and surveillance sensors.
- Highly reliable, reducing cost of ownership.
- Reduced installation costs and downtime.
- Typical 50-pound weight savings.
- Paperless cockpit capabilities.

ADVANCED FEATURES

- High-resolution 8- x 10-inch LCD displays.
- Graphical NEXRAD weather.
- Electronic Jeppesen charts with SIDs, STARs, NOTAMs, approaches and airport diagrams.
- Displays support TAWS, Collins Weather Radar, TCAS and other advanced features.
- Enhanced maps of geographical and political boundaries, as well as airspace restrictions, terrain features and high and low airways.
- Electronic engine instrumentation displayed on MFD.
