DUNCAN AVIATION PRESENTS THE HAWKER 800A/800XP FEATURING **ROCKWELL COLLINS PRO LINE 21 IDS**

The Pro Line 21 IDS updates the Hawker cockpit and prepares it for future technologies. Designed for improved safety, it enhances situational awareness, enables strategic route planning and maintains EGPWS/TAWS, TCAS, Weather Radar and other sensor data. It also provides features such as electronic charts, maps, graphical weather and electronic engine instrumentation. One of the greatest benefits to this system is in the potential for future enhancements through software.

PRO LINE 21 IDS BENEFITS

- Enhanced safety through situational awareness.
- Enables strategic route planning.
- Compatible with Collins radios.
- Enables use of EGPWS/TAWS and other critical sensor data on Primary Flight Displays (PFD), while displaying charts, maps and weather on MFDs.
- Reduces weight, wiring and power requirements.
- Increased reliability.
- CAT II Certification.

ADVANCED FEATURES

- Four high resolution 8x10-inch LCD displays.
- Designed for growth for future airspace environmental requirements (CNS/ATM).
- Interfaces with existing Rockwell Collins APS-85 autopilot platform.
- Electronic Engine Instrumentation.
- Future Enhanced Vision System (EVS) Display Capability.
- Dual IFIS 5000 File Graphics Servers.
