DUNCAN AVIATION PRESENTS THE KING AIR 200/300/350 FEATURING **ROCKWELL COLLINS PRO LINE 21**

The Rockwell Collins Pro Line 21 avionics package updates the King Air cockpit and establishes the platform for future technologies. The Pro Line 21 brings the King Air up to new factory avionics level. Dual flight directors are included.

The Pro Line 21 for the King Air includes three large 10-inch AMLCDs. Reliable, affordable, lighter weight, with planned future capability, Pro Line 21 is the logical choice of modern products for your King Air, allowing you to upgrade to a like-new aircraft.

PRO LINE 21 BENEFITS

- Replaces the existing avionics with a brand new avionics suite.
- New Pro Line 21 communication, navigation and surveillance sensors.
- Extremely reliable, reducing cost of ownership.
- Weight savings.

ADVANCED FEATURES

- Optional IFIS-5000 File Graphics Server — provides charts and satellite weather.
- Enhanced vision interface planned for 2007/2008.
- Large 10-inch displays, high-resolution AMLCD.
- Supports TAWS, Turbulence Weather Radar, TCAS and more.
- Electronic charting with SIDs & STARs, NOTAMS, approaches and airport diagrams.
- XM Satellite or data link graphical weather including NEXRAD.
