INFORMATION & CAPABILITIES

AVIONICS AND INSTRUMENTS

Duncan Aviation's avionics and instrument specialists provide comprehensive inspection, installation, troubleshooting, servicing, and repair for nearly every type of equipment your aircraft might have—or need to have—onboard. This means you get the convenience of a one-stop shop for all your avionics needs, minimizing downtime and ensuring your aircraft is equipped with the most reliable and cutting-edge technology.

As an authorized sales and factory service center for top-tier brands such as Collins Aerospace, Honeywell/BendixKing, Avidyne, Garmin, and JET/BF Goodrich/L3, you can trust us to deliver the highest quality parts and services. We are also proud to be the only authorized Universal Avionics Service Center in the United States, offering unmatched expertise and support for this specialized equipment.

Our dedicated avionics and instrument shop team consists of over 80 skilled technicians and Customer Account Representatives who are experts in the following areas:

- Autopilot/Flight Director Systems
- Radar Systems
- Navigation/Communication Systems
- ADF Receivers
- Flight Management Systems
- DME Transceivers
- Transponders
- Audio Control Systems
- Attitude Direction Indicators (ADI)
- Horizontal Situation Indicators (HSI)
- Pitot Static Instruments
- Gyros
- Calibration Services. New capabilities added regularly
