INFORMATION & CAPABILITIES

Duncan Aviation's Calibration Services, located in Lincoln, Nebraska, is an A2LA (cert 3908-01) accredited calibration laboratory to ISO/IEC 17025. Our calibrations are traceable to the National Institute of Standards and Technology (NIST). We have technicians who are Snap-On Factory Trained in calibration and repair on all Snap-On/CDI torque devices

Bring your tools with you the next time your aircraft is serviced at one of our full-service maintenance facilities. They will be calibrated and ready for use when you are ready to leave.

TOOL CALIBRATIONS

Duncan Calibration Services are available to anyone with measuring and test equipment that require periodic calibration, including non-aviation companies. We will follow your company's calibration program and issue a calibration certificate and data, upon request. We are available to assist with your scheduling to meet your needs.
