

Duncan Aviation Worldwide Support

Regional Managers

Duncan Aviation has Regional Managers strategically placed across the world in an effort to better support our customers.

Each Regional Manager travels their region, meeting with aircraft operators, management organizations and other service providers with the goal of maintaining and building relationships, providing customer service, educating operators and learning more about each region's regulatory issues and processes while engaging in industry forums.

Our Regional Managers are enthusiastic aviation professionals. Each one has a strong desire to assist operators in safe and efficient flying.
