## INFORMATION & CAPABILITIES

Each of Duncan Aviation's Calibration Laboratories, located in both Lincoln NE and Battle Creek MI, provide calibration services that are traceable to the National Institute of Standards and Technology (NIST). The Lincoln NE location is an accredited calibration laboratory to ISO/IEC:17025 through A2LA, cert 3908.01.

Our calibration services are available to anyone with measuring and test equipment/tooling that require calibration, both within and outside of the aviation industry. We look forward to assisting your organization with its calibration needs in maintaining compliance and quality requirements in a timely manner. Contact us with any questions or inquiries you have.

Our calibration services are available to anyone with measuring and test equipment that require periodic calibration, including non-aviation companies. We will follow your company's calibration program and issue a calibration certificate and data, upon request. We are available to assist with your scheduling to meet your needs.

### CALIBRATION SERVICES

- Accredited to ISO/IEC:17025 (A2LA cert 3908.01)
- NIST traceable calibration services
- Quick-turn service available upon request
- Data provided upon request
- Repair capabilities on many of the items we calibrate
- Snap-On Factory trained technicians for torque devices
- On-site calibration services
- Sub-contracting services

### SEND-IN TOOL SERVICES

To schedule service or receive a quote, contact:  
Duncan Calibrations Services  
+1 402.479.1698  
[Calibration@DuncanAviation.com](mailto:Calibration@DuncanAviation.com)

Ship via FedEx (with special FedEx zip code) to:  
Duncan Aviation Calibration Services  
4001 N Park Rd  
Lincoln, NE 68500

All other carriers, ship to:  
Duncan Aviation Calibration Services  
4001 N Park Rd  
Lincoln, NE 68524

For our aviation customers, if your aircraft is serviced at one of our full-service maintenance facilities, bring your tools along. We will calibrate them and have them ready for use when you are ready to depart.

### CAPABILITIES

#### Acoustic

- Sound level meters

#### Aviation/Radio Frequency

- Analog pitot static test sets
- Attenuators
- Avionics test sets
- Battery chargers
- Communication monitors
- Digital pitot static test sets (RVSM)
- Fuel quantity test sets
- IFR-4000s 6000s
- Ramp testers
- Sight compass
- Tensiometers
- Watt Meters

#### Dimensional

- Dial & test indicators
- Digital Protractors
- Calipers
- Crimpers
- Height Gauges
- Micrometers
- Rulers/Tape Measures
- Surface plates

#### Electrical

- Angle position indicators
- Clamp-on current meters
- Frequency counters
- Megger
- Multimeters
- Oscilloscopes
- Power supplies
- Resistance

- Scopometers
- Signal generators
- Tachometers
- Timers

#### Fluid/Chemical

- Conductivity meters
- Master hydrometers
- pH meters

#### Force

- Force Gauges

#### Mechanical

- Accelerometers
- Scales
- Torque angle
- Torque screwdrivers
- Torque wrenches

#### Optical

- Devore FMG4400D guns\*

#### Pressure

- Pressure gauges
- Pressure transducers

#### Thermodynamics

- Data loggers
- Dry block calibrators
- Humidity
- IR Thermometers
- Temperature baths
- Thermal imaging cameras
- Thermocouples
- Thermometers

\*Duncan Calibration Services is the exclusive authorized calibration provider for the Devore FMG4400D Flash gun
